Ikpemhinoghena Etiuzale

Software Developer · Video Editor · SEO Specialist · Graphic Designer

Results-driven technologist and creative professional with a proven track record of architecting high-performance web solutions, producing video content, and engineering data-informed SEO strategies that deliver measurable growth. I fuse deep technical expertise with artistic vision — building responsive full-stack applications, crafting compelling visual narratives, and driving search experiences that convert. Passionate about empowering others, I founded PathwayCompass to help students navigate their educational journeys with confidence, and I bring the same precision and commitment to excellence to every client and challenge I take on, eager to contribute my skills while expanding my knowledge in a professional environment

PROFESSIONAL EXPERIENCE

Freelance Web Developer & SEO Specialist

Dec 2023 – Dec 2025

Self-Employed — Remote

- Architected and launched 15+ modern, responsive websites for SMEs and entrepreneurs, increasing average client online engagement by 40% through SEO-optimised, mobile-first design using HTML5, CSS3, JavaScript, and React.
- Devised and executed end-to-end SEO campaigns, integrating technical audits, keyword research and link-building strategies, elevating client search rankings from page-three obscurity to page-one visibility.
- Collaborated with cross-functional client teams to deliver scalable digital solutions on schedule, consistently exceeding project scope expectations
- Engineered automated workflows and system integrations that eliminated repetitive manual processes, cutting client data-entry workloads by over 30%.

Founder & Developer

PathwayCompass

- Founded and scaled PathwayCompass, a platform purpose-built for BYU-Pathway Worldwide learners — delivering structured tutorials, career-readiness tools, AI-powered support, and curated academic resources.
- Engineered the entire full-stack platform independently from concept through to production launch.
- Drove cohort-wide adoption, enabling students to improve academic performance, navigate the online degree system confidently, and accelerate their career readiness journey.
  Produced high-production tutorial video series that synthesised complex course content into clear, engaging walkthroughs, measurably boosting student comprehension rates.

Video Editor & Media Producer

Feb2024 – Dec 2024

Benin City Coordinating Area — The Church of Jesus Christ of Latter-day Saints

- Produced and edited professional-grade documentary and event videos, strengthening organisational communications and amplifying community outreach impact across multiple districts.
- Delivered broadcast-quality footage through expert colour grading, sound design, and motion graphics while maintaining strict brand standards.
  Collaborated with senior coordinators and cross-area creative teams to conceptualise compelling video narratives that resonated with diverse audiences region-wide.

Graphic Designer (Freelance)

2023 – Dec 2025

Independent Creative Studio

- Delivered end-to-end visual identity projects — logos, brand guidelines, and marketing collateral — for clients across diverse industries, collaborating within creative teams to ensure cohesive brand consistency across every touchpoint.
- Designed polished UI/UX prototypes and high-fidelity mockups in Figma, translating stakeholder wireframes into user-centric interfaces that directly informed and accelerated front-end development sprints.
- Produced compelling social media graphics, promotional campaigns, and digital assets in Illustrator,

EDUCATION

Bachelor of Science in Software Development

In Progress

Brigham Young University – Idaho (BYU-Idaho)

- Coursework spans Software Engineering, Python, C#, SQL, Data Structures, and Algorithms — building strong theoretical and applied programming foundations.
- Developing expertise in Web Development, Mobile Applications, and Software Project Management, preparing for industry-ready full-stack engineering roles.
- Implementing comprehensive testing strategies and debugging techniques to deliver robust, high-performance applications.

Diploma — PathwayConnect Certificate

2023

BYU-Pathway Worldwide

- Developed core professional competencies including teamwork, leadership, and project management through rigorous online collaborative coursework.
- Mastered Microsoft 365 productivity tools, time management strategies, and professional communication skills applied across all subsequent work engagements.
- Strengthened decision-making, quantitative reasoning, and online learning disciplines that form the backbone of continued academic and professional growth.
